

Dear Runner,

We are pleased to announce that the Shelton Striders 10K is part of the 2025 **RunDerby** Race Series and wish to inform you of some important information if you wish for your points to be included in the league tables correctly.

It is important that you pay close attention to the three fields below otherwise it will cause duplications in the **RunDerby** Race Series. To be included correctly in the **RunDerby** Race Series, please follow these points:

- **NAME:** Spell your name exactly the same across all of the events you enter in the race series. Make sure you include hyphens where necessary and keep your first name consistent if you sometime shorten it (i.e. Dan or Daniel, Pete or Peter, etc and don't use both in different events).
- **AFFILIATED CLUB:** Make sure you include your affiliated club in every race entered, especially the first race.
- **DATE OF BIRTH:** Make sure this is provided and is accurate. Your age on the date of the first race determines your age category throughout the race series, even if you move up an age category part of the way through.

We strongly recommend you to check your results after each **RunDerby** Race Series event that you take part in as once the results are final (after 2 weeks), they are sent to the **RunDerby** Race Series for inclusion in the league tables and amendments cannot be made after this point.

#### About the **RunDerby** Race Series

The 2025 **RunDerby** Race Series is made up of events from May to November which contributes to male, female and club league tables. The 2025 series is a collection of 7 races where you receive points based on your finishing position at each race. There is no separate registration required for the overall race series and all you need to do is enter each race individually and run! Up to the best 4 scores from the 7 available races count at the end of the series. If you score points in less than 4 races, you will appear on the league table but will not count towards the final league table standings. You can also gain points by volunteering at the race if you are unable to participate for whatever reason. Your points will still count for your club in the club league table regardless of how many events you take part in.
